HOPE TO CHARTER  
CAR FOR TRIP CITY  
ILLINOIS DELEGATES

Efforts are being made on the part of Moline illini to secure sufficient reservations from tri-city illini to warrant the chartering of a special car to transport the delegation to Urbana Oct. 29-31 there to attend the homecoming festivities to be staged by the university. The plan, it is believed, will materially reduce expenses of the trip and relieve worry over securing of hotel accommodations.

The Moline delegation plans to leave Oct. 28 and arrive in Urbana the next day. They will return Sunday night. Arrangements are being made by the local committee comprising Clyde Bergstrom, Harry Munson and J. N. Samuels to reserve tickets to the Illinois-Minnesota game so that the entire delegation may attend in a body. The inter-collegiate game is to be the crowning event on the program Saturday, which is to be the big day of the homecoming.

Saturday morning will take place the installation of the senior memorial chimneys with a fitting ceremony. The event opens with a hop parade Friday afternoon, followed by an inter-class game with a pep meeting in the gymnasium that evening.

CONDITION OF  
BOY STRUCK BY  
CAR IMPROVED

**William Sweet, Injured in Automobile Accident, Has Chance for Life, Says Doctor.**

William Sweet, the 16-year-old East Moline youth who was thrown from his bicycle and run over Sunday morning, is in an improved condition today and if pneumonia does not set in, has every chance of recovery, according to Dr. A. T. Leisfeld, who is attending him.

The lad's lung was punctured and several ribs were broken. It was reported yesterday. It was at first feared that he had suffered other internal injuries, but this proved untrue.

William was riding along a path through Riverside cemetery and was attempting to cross the main roadway when the accident occurred. Solomon Freeburg, who ran into the boy, did all in his power to avoid an accident, but the wheels of his car slipped on the wet grass. Mr. Freeburg, who suffered a nervous breakdown as the result of the accident, is also improved today.

START GRADE WORK  
ON APPROACHES TO  
RIVER DRIVE BRIDGE

Actual work of grading and leveling the river drive road that may some day be converted into a memorial boulevard, was started last week, according to an announcement made at last night's council meeting by Alderman Fred Holli, chairman of the street and alley committee.

CONTINUE TO TEST  
RIVER WATER UNTIL  
ICE HINDERS WORK

Study of Moline's water supply by city and state chemists will continue until the river freezes over. O. E. Anderson, city chemist, stated today. Samples are being taken of water on both sides of the wing dam between Seventeenth street and Campbell's island twice each month. Tests are made here and at the University of Illinois.

The purpose of the tests is to determine what effect East Moline and Watertown sewage has upon the purity of Moline's water supply and to settle the question of whether water is purer on this side or the other side of the wing dam.

Moline is getting practically all of its water from the near side of the dam at present as the old pipe which leads to the opposite side of the dam is seldom used. The new pipe now being laid will take water from this side of the dam only which the water administration believes is the best source.

**BIG DELEGATION TO ROCKFORD** One hundred members of the Maran lodge No. 154, Oriental Order of Odd Fellows, will go to Rockford Saturday to assist in the organization of an oriental order there. The local delegation will leave over the Milwaukee at 4 p. m. Saturday.

GRAIN VALUES  
TAKE SEEBACK  
MART BEARISH

Chicago, Oct. 19.—General selling, due largely to disturbed conditions in Great Britain, led to fresh setbacks today for wheat values.

Assertions by a prominent banker here that lowering of commodity prices must continue tended also to emphasize bearish sentiment. Besides, it was reported that Kansas bankers had been warned by the state banking commissioner's office that farmers should be urged to sell their wheat. Opening quotations which ranged from 1 1/2c to 2 1/2c lower, with December 32.07 1/2 to 32.09, and March 31.98 1/2 to 32.00 1/2, were followed by decided additional drops.

Liquidation as well as short selling was in evidence, with no sign of investment buying. The market closed nervous, 5 1/2c to 6 1/2c net lower, with December at 2.35 to 2.05 1/2 and March at 1.95 1/2 to 1.95 1/2.

Corn fell with wheat. After opening 1/2c to 3/4c lower with December 85 1/2c to 86 1/2c, the market underwent a material sag. No important buying developed and future deliveries struck lower levels than for three years past. The close was unsettled at 2 1/2c to 5 1/2c net decline, with December at 83 1/2c to 84c.

Oats, depressed by the weakness of other grain, started 3/4c to 1/2c down, December 55 1/2c to 55 1/2c, and continued to decline, with December at 54 1/2c to 55c.
